RBF Consulting (RBF) provides community involvement, planning, urban design, environmental analysis, entitlement processing, and construction services to a variety of public, non-profit and private sector clients throughout the United States.

As some communities embark on new development endeavors and others are faced with revitalization needs, the RBF team is skilled in assisting clients to discover the unique sustainability potential of their respective projects. Clients are regularly confronted with a range of challenges that may include the need to prepare community-based vision plans, to survey the range of existing on-the-ground opportunities and constraints, to develop design plan alternatives, to assess long-term infrastructure needs and impacts, as well as to manage project implementation. The RBF team is comprised of seasoned professionals committed to providing a range of solutions to these issues and to assisting with the transformation of vacant or underutilized sites into vital and productive community assets.

"Cities have the capability of providing something for everybody, only because, and only when, they are created by everybody."

Jane Jacobs, The Death and Life of Great American Cities

RBF
CONSULTING

With an intense focus on quality of life, social and economic health, livability and sustainability, RBF team members are often recognized for their passion in making a meaningful difference in each and every community in which they work. Our team members are equally committed to staying current with issues and trends. Some of our team's certifications include:

- AIA**, American Institute of Architects
- AICP**, American Institute of Certified Planners
- CEP**, Certified Environmental Professional
- CMSM**, Certified Main Street Manager
- CNU-A**, Congress for the New Urbanism-Accredited
- LEED AP**, Leadership in Energy and Environmental Design
- RLA**, Registered Landscape Architect
