The multi-disciplined staff at RBF Consulting (RBF) has provided emergency assistance during and after a variety of natural disasters including fires, flooding, and earthquakes. RBF staff members include engineers and surveyors, many of which are Disaster Recovery Specialists in the fields of civil, environmental, structural, hydraulics and hydrology, construction manage-

ment, surveying, and water resources. RBF's clients receive the benefits of a formally trained, highly qualified staff backed by the resources of offices

located throughout California, Arizona, and Nevada.

RBF recognizes the need for immediate response to emergency conditions and performs quickly and professionally under these intense work conditions. Our simple yet comprehensive approach to "turn key" project management for projects funded by FEMA and OES results in maximum financial recovery for our clients. Our services include:

- *Immediate Response and Emergency Strategy Formulation*
- *Project Documentation*
- *Disaster Recovery Application Assistance*
- *FEMA and OES Inspection Team Coordination*
- *Project Design, Construction and Construction Management*
- *Appeals, Final Inspections and Audits*

Our Emergency Response teams are dedicated to working with local communities to bring about recovery from natural disasters using innovative, cost effective and workable solutions.
